

The Hunter's Ledger

Sponsorship Opportunities

Independent Threat Intelligence - Working Detection Content - Defender-First Reporting

Why This Audience Is Worth Reaching

The Hunter's Ledger is an independent threat intelligence publication producing in-depth malware analysis, infrastructure investigations, and operational detection content. Every report ships with working YARA, Sigma, and Suricata detections, validated IOC packages, MITRE ATT&CK mapping, and evidence-tied attribution assessments.

Sponsorship places your brand alongside the kind of technical research that working defenders actively consume and integrate into their environments. This is a placement next to working detection content used by your buyers - not a CPM impressions buy.

Who Reads The Hunter's Ledger

Reader Role	What They Take From Each Report
CISO & Security Leadership	Risk framing, business impact, vendor capability signals informing tool evaluation
Threat Intelligence Analysts	Attribution assessments, infrastructure pivots, actor TTPs, IOCs
Detection Engineering Teams	Ready-to-deploy YARA / Sigma / Suricata rules with evidence backing
SOC Analysts (L1-L3)	Behavioral indicators, kill chain reconstruction, ATT&CK mapping for hunt content

Three Reasons Sponsors Choose Us

1. Reach Buyers, Not Eyeballs.

Detection engineers, threat intel analysts, and security leadership are hard to reach through mass-market security media. Every reader here is a defender doing daily work that informs procurement.

2. Credibility By Association.

Your brand sits alongside reverse engineering, working detection rules, and evidence-tied attribution. Sponsors are presented as supporters of the defender community - not advertisers.

3. Permanent Shelf Life.

Reports are archived in perpetuity and continue surfacing in search results, vendor evaluations, and threat hunts. Your sponsorship placement remains live for the life of every report.

Sponsorship Tiers

Three sponsorship tiers, each with permanent brand placement and editorial independence.

Tiers are flexible starting points. Multi-Report bundles can be any size - three, four, six, ten reports - whatever matches your goals. Custom packages combining elements across tiers are available. Reach out to discuss what fits.

Report Sponsor

\$150

Single-report placement. Your brand attached to one report - your choice of any newly published or archived report from the catalog. Archived reports continue to draw search traffic and reader returns long after publication.

What's included:

- **Your choice of any report** - newly published or from the archive
- "Sponsored by [Sponsor]" banner on the report
- Logo and link to your site or chosen landing page
- Mention in social media posts referencing the report (LinkedIn, X)
- Mention in the subscriber email (for new reports) or a dedicated post (for archive)
- Listed on the live Sponsorship page under the Report Sponsor tier
- Permanent placement for the life of the report

Best fit: Sponsors testing the audience, aligning with a specific research topic, or attaching their brand to an existing high-traffic report from the archive.

Multi-Report Sponsor

\$750

Six-report placement bundle. Your brand attached to six consecutive or sponsor-selected reports, with featured visibility across the bundle period.

What's included:

- All Report Sponsor benefits across six reports
- Choice of six consecutive reports or sponsor-selected reports (subject to schedule)
- Featured listing on the main Sponsorship page under the Multi-Report tier
- One dedicated LinkedIn post during the bundle period highlighting the relationship
- Mention in subscriber emails accompanying each sponsored report
- Permanent placement across all six reports

Best fit: Sponsors building sustained presence across a research arc, or aligning with a campaign theme spanning multiple investigations.

Monthly Sponsor

\$500 / month

Site-wide branded presence. Logo in the site footer visible to every visitor, plus inclusion on every report published during the sponsorship month. Annual term available at \$5,000 for the year.

What's included:

- Logo and tagline in the site footer, visible across every page
- "Sponsored by [Sponsor]" banner on every report published in the month
- Featured listing on the main Sponsorship page under the Monthly tier
- Two dedicated LinkedIn or X posts per month highlighting sponsor capability
- Mention in every subscriber email during the sponsorship period
- Monthly readership report (uniques, top reports, social engagement)

Best fit: Sponsors seeking flagship site-wide presence and inclusion in every piece of content published during the term.

Founding Sponsor Offer

First Sponsor At Each Tier - Offered Once, Retires When Filled

- **Report Sponsor:** \$100 (standard \$150)
- **Multi-Report Sponsor:** \$500 for the bundle (standard \$750)
- **Monthly Sponsor:** \$300/month, no time cap - founding rate held for the full duration of your sponsorship (standard \$500/month)

Editorial Independence

Sponsorship buys placement and brand association - not content control. These rules protect the credibility that makes the publication worth sponsoring.

- Sponsors do not review reports or influence findings, attribution, or recommendations
- Sponsor-requested research topics are accepted as suggestions, not directed by sponsors
- Sponsors are never named as analysts or contributors
- Sponsored placement is always clearly disclosed - this is not native advertising

Optional Add-Ons

Stack any of these on top of a sponsorship tier:

- **Newsletter shoutout** – **\$75** – One-off sponsored mention in a subscriber email send
- **LinkedIn or X post** – **\$100** – Single sponsored post about your capability or content
- **Sponsor-requested research topic** – **\$500+** – Suggest a research direction; editorial independence preserved

To discuss sponsorship, request a custom package, or claim the founding-sponsor slot, reach out directly:

Email: intel@the-hunters-ledger.com

LinkedIn: linkedin.com/in/josephrharrison

Web: the-hunters-ledger.com

Reach out however works best for you - email, LinkedIn message, async chat, or a call. Happy to walk through the audience and recent reports, or just answer questions. Custom packages and bundles welcome.

What Your Sponsorship Supports

The Hunter's Ledger is run by a single researcher. Sponsorship directly covers the hardware, infrastructure, tooling, and time required to publish original threat intelligence and working detection content. There is no corporate backing, no paywall, and no ads - sponsorship is what keeps this research independent and free for the defender community to read.
